**Nanokeratin treatments**

Many of us have returned from holidays with dry, brittle hair - weeks of swimming in the ocean, chlorinated pools and sun exposure sapping all the lustre from our locks. Leave-in conditioners and treatment creams can offer temporary relief, but nothing revives the hair like a hit of Nanokeratin. Tiny molecules of keratin are deposited on the hair strand, repairing the damaged sections. Perfect for colour-treated hair. One treatment will get the hair feeling smooth and looking better, but some serious head cases (over-bleached blonde hair) could require up to four treatments. A treatment costs \$75-\$125 depending on the hair length and salon.

Available from Hair Outaquin, North Perth; House of Ernest, city; Get Funked, Subiaco; Fabiani's, Mosman Park; Hair 2 Dye 4, Scarborough; Enigma, Scarborough; St James, Northbridge; Gazzos for Hair, Willetton; Studio 8, Mandurah; and Shardaes, Secret Harbour.
